RESEARCH QUALITY MANAGEMENT PROGRAM (RQMP)

Purpose
To innovate and implement best practices for research quality, scientific integrity and accountability. The RQMP brings together research conduct and research administration under one program to facilitate communication and understanding and to ensure that faculty and staff are working collectively toward common goals of improved research quality, scientific integrity, and accountability.

Research Conduct
- Policies & Procedures
- Disclosing Conflict of Interest & Commitment
- Responsible Conduct of Research
- Unit Specific Training
- SCAP Attestation
- Clinical Quality Management (Audits)
